(54) Title: SYSTEM AND METHOD FOR PHARMACEUTICAL MANAGEMENT AND TRACKING

(57) Abstract: A product inventory management system 300 including a cabinet 100 configured to contain an inventory of product units 200 having RFID tags 230 and further configured to monitor the inventory by wirelessly detecting the RFID tags 230, and a server system 310 configured to communicate over a network with the cabinet 100, the server system capable of managing the inventory of the cabinet. There is also a method for product inventory management, including receiving, in a server system 310 and via a network 340, inventory data from a cabinet 100, the inventory data corresponding to an inventory of product units 200 stored in the cabinet 100, and generating an order to have additional product units added to the cabinet according to the cabinet inventory.

INTERNATIONAL SEARCH REPORT

International application No.

US2/006/45884

A. CLASSIFICATION OF SUBJECT MATTER

IPC: **G06Q 10/00(2006.01)**

USPC: 705/28

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
U.S. : 705/28

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	US 2003/0144926 A1 (Bodin et al.) 31 July 2003, abstract, paragraphs 29, 36, figure 9 and claim 21.	1-21

Further documents are listed in the continuation of Box C.

See patent family annex.

* Special categories of cited documents:		
"A"	document defining the general state of the art which is not considered to be of particular relevance	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"E"	earlier application or patent published on or after the international filing date	"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"L"	document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"O"	document referring to an oral disclosure, use, exhibition or other means	
"P"	document published prior to the international filing date but later than the priority date claimed	"&" document member of the same patent family
