(54) Title: CELL CULTURE DEVICE

Figure 1

(57) Abstract: The invention relates to a cell culture device for culturing together at least a first type of cells and a second, different type of cells, wherein the first type of cells secretes at least a first type of signaling molecules which interacts with the second type of cells and the second type of cells secretes at least a second type of signaling molecules which interacts with the first type of cells, wherein the device comprises a first element having a first surface on which the first type of cells is present and a second element having a second surface on which the second type of cells is present and wherein the first surface and the second surface are separated only by a culture medium and wherein the first element and the second element are detachable.

INTERNATIONAL SEARCH REPORT

International application No
PCT/EP2012/000467

A. CLASSIFICATION OF SUBJECT MATTER
INV. C12M3/00
ADD.

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
C12M

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

EP0-Internal

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	CORNING INCORPORATED: "Transwell Permeable Supports", INTERNET CITATION, September 2007 (2007-09), pages 1-13, XP002591865, Retrieved from the Internet: URL:www.mattekcorp.com/Corning-Snapwell-Tr answell_InstrManual.pdf [retrieved on 2010-07-14]	1-10, 15
A	the whole document ----- -/-	11-14

Further documents are listed in the continuation of Box C.

See patent family annex.

* Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family

Date of the actual completion of the international search

26 April 2012

Date of mailing of the international search report

22/10/2012
