(54) Title: METHOD AND SYSTEM FOR ENABLING MERCHANTS TO SHARE TOKENS

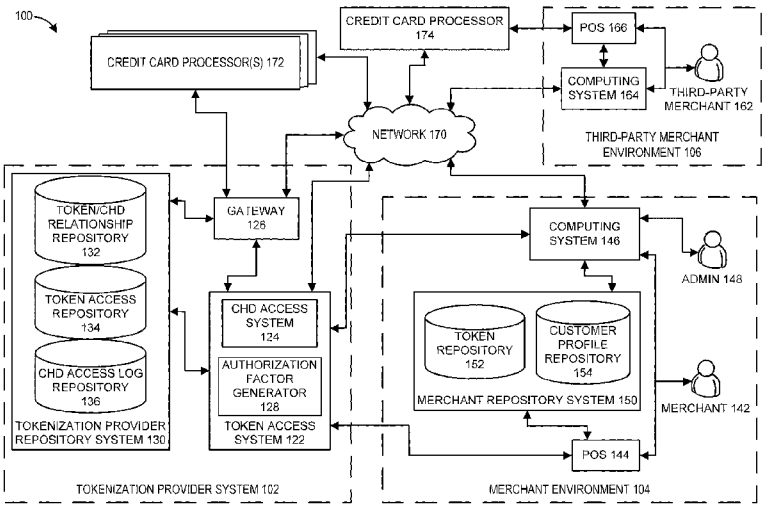

FIG. 1

(57) Abstract: One embodiment of the present disclosure provides a system and associated processes for sharing cardholder data (CHD) between a merchant that utilizes tokemzation and a second merchant that may or may not utilize tokemzation. In one embodiment, the merchant, or an employee of the merchant, can use the system and associated processes to reacquire CHD from a tokemzation provider system, in one embodiment, the merchant identifies to the tokemzation provider system a desire to share CHD, which is associated with a token, with a second merchant. The merchant and/or the tokemzation provider system can then invite the second merchant to register with the tokemzation provider system. Once registered with the tokemzation provider system, the second merchant can access any CHD that the merchant associated with the second merchant.
