Title: METHOD AND PPAEATUS FOR MANAGING CONTENT IN A MOBILE DEVICE

Abstract: An embodiment generally relates to a method of managing content in a mobile device. The method includes receiving 405 content from a provider, where the content includes at least one file 300 segmented into plurality of segments 315 and at least one segment being encoded with a digital rights management (DRM) technique. The method also includes determining 410 DRM status each segment of the plurality of segments and retrieving 425 a DRM permission in response to the at least one segment being encoded by a DRM technique. The method further includes applying 430 the DRM permission to the at least one segment of the content and displaying 435 the least one segment.
INTERNATIONAL SEARCH REPORT

International application No
PCT/US06/61988

A CLASSIFICATION OF SUBJECT MATTER
IPC H04 N 7/167

USPC 380/45
According to International Patent Classification (IPC) or to both national classification and IPC

B FIELDS SEARCHED
Minimum documentation searched (classification system followed by classification symbols)
U S 380/45

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

C DOCUMENTS CONSIDERED TO BE RELEVANT

<table>

</table>

D Further documents are listed in the continuation of Box C

* Special categories of cited documents

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"A" document defining the general state of the art which is not considered to be of particular relevance

"F" document of particular relevance the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"E" earlier application or patent published on or after the international filing date

"X" document of particular relevance the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents such combination being obvious to a person skilled in the art

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"Y" document of particular relevance the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents such combination being obvious to a person skilled in the art

"O" document referring to an oral disclosure use exhibition or other means

"D." document member of the same family

"P" document published prior to the international filing date but later than the priority date claimed

See patent family annex
