**CLAIM**

The ornamental design for a trach tube holder, as shown and described.

**DESCRIPTION**

FIG. 1 is a front elevational view of a trach tube holder with the ends of the holder folded into a connected position, a rear elevational view of said holder being a mirror image of said front view illustrated;

FIG. 2 is a first side view of the holder illustrated in FIG. 1, a second side view of the holder being a mirror image of said first side view;

FIG. 3 is a bottom view of the holder illustrated in FIG. 1;

FIG. 4 is a top plan view of the holder illustrated in FIG. 1;

FIG. 5 is a front elevational view of the holder with the ends of the holder extended into a disconnected position, a rear elevational view of said holder being a mirror image of said front view illustrated, the dashed lines illustrating that the length of the holder may vary;

FIG. 6 is a perspective view of the holder connected to a trach tube around a user’s neck

FIG. 7 is a perspective view of the holder;

FIG. 8 is a bottom view of the holder illustrated in FIG. 5, and,

FIG. 9 is a top plan view of the holder illustrated in FIG. 5.

It is understood that the appearance of FIGS. 5, 8 and 9 is the same as that shown in FIGS. 1-4 excepting the varying length of FIGS. 5, 8 and 9.

The broken lines shown in the drawings are for illustrative purposes only and form no part of the claimed design.
