(57) **CLAIM**

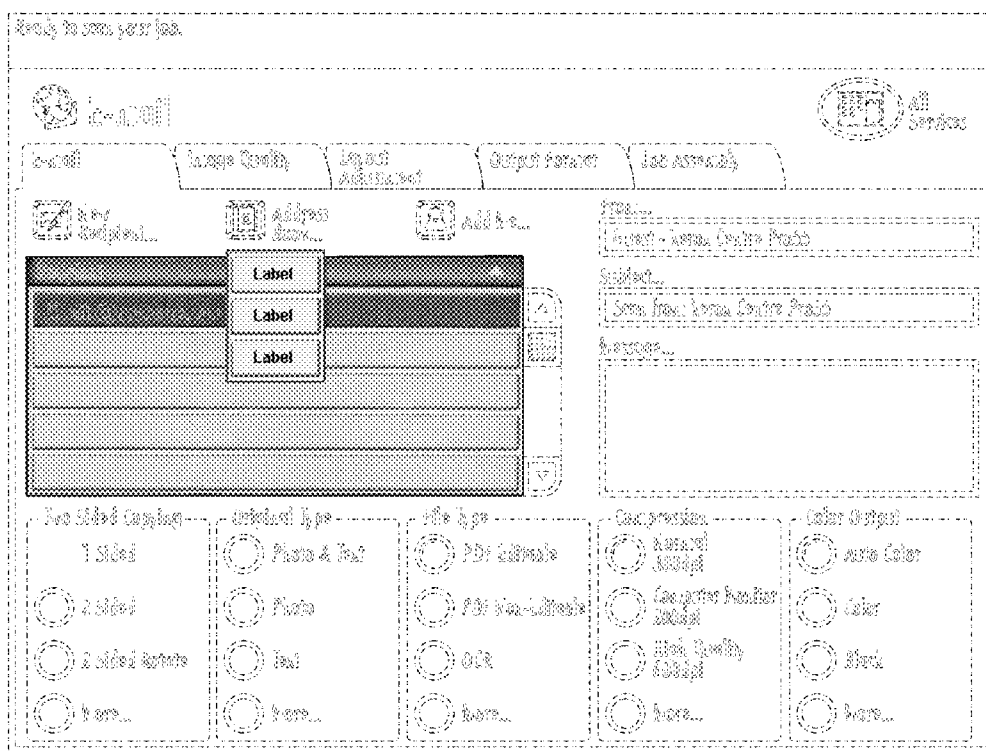

The ornamental design for table rows with pop up menu for a touch-based user interface for an image processing machine, as shown and described.

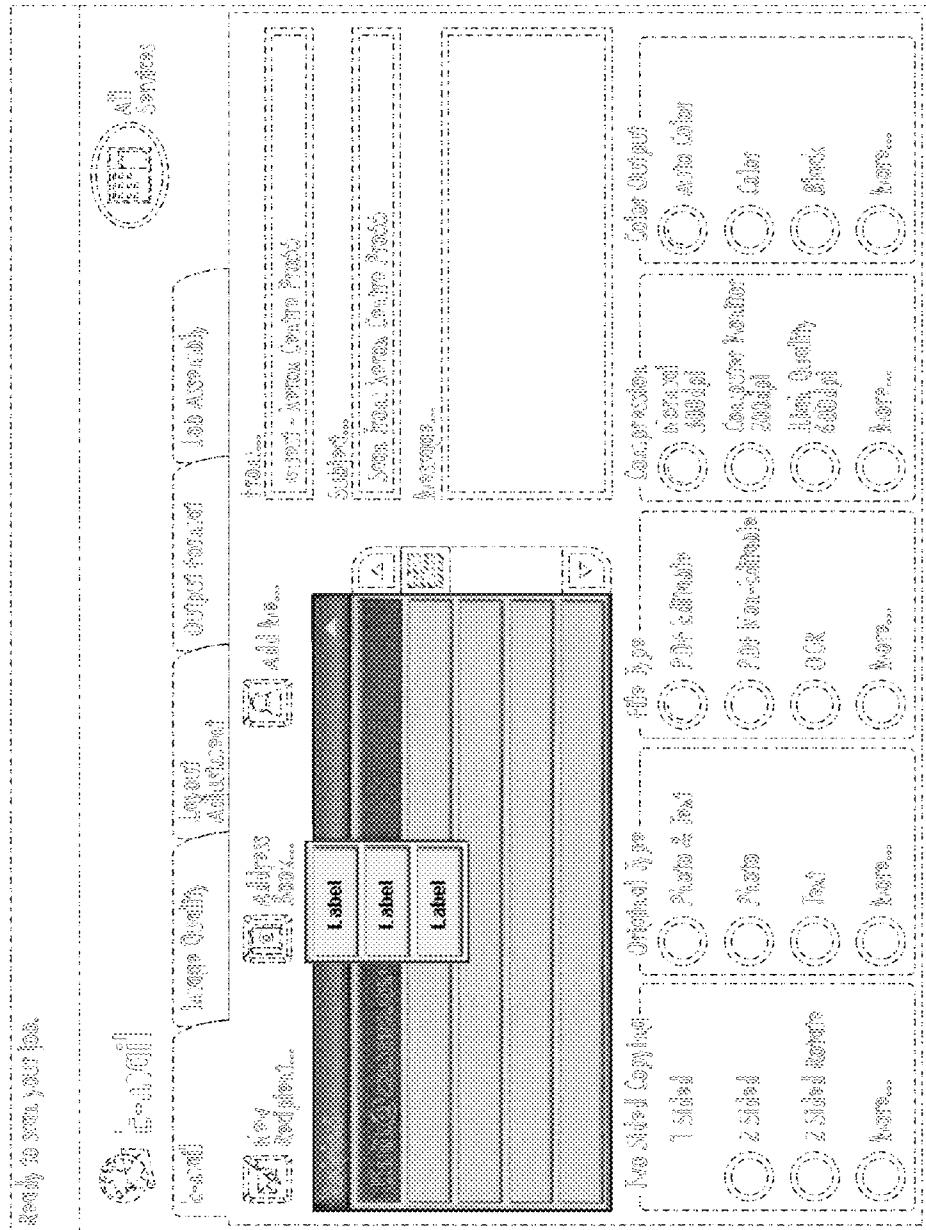

**DESCRIPTION**

The FIGURE is a front view of table rows with pop up menu for a touch-based user interface for an image processing machine in accordance with the present invention.

The broken line drawings of text, numbers and graphic elements within the interface and the interface for an image processing machine are shown for illustrative purposes only and do not form part of the claimed design.

**1 Claim, 1 Drawing Sheet**
