(54) Title: DISAMBIGUATING RESIDENTIAL LISTING SEARCH RESULTS

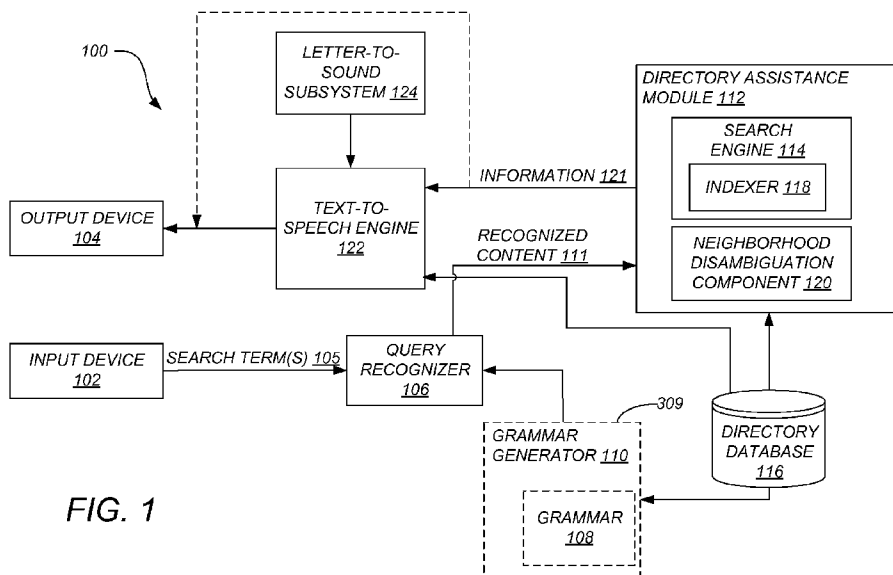

FIG. 1

(57) Abstract: A directory assistance system includes a directory database and a search engine. The search engine is configured to search the directory database for a first set of residential listings based on at least one first search term. A second search term is received that is related to a cohabitant of the listing to be found. At least one search result is selected that satisfies the second search term.
