(54) Title: CANCER THERAPY

Figure 1

(57) Abstract: The present invention is directed to compositions and methods for the treatment of cancers, particularly cancers of epithelial origin. Therapy with a plurality of nutraceutical, non-chemotherapeutic and chemotherapeutic agents, that together target a plurality of cancer-supportive processes in a patient are disclosed. Among other things, the present invention encompasses the insight that redundant targeting of multiple such pathways provides effective treatment of various cancer, including late-stage cancers, metastasized cancers, and/or cancers that have failed treatment with traditional chemotherapy and/or other therapeutic modalities.

* Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance

"E" earlier application or patent but published on or after the international filing date

"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

"O" document referring to an oral disclosure, use, exhibition or other means

"P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

see additional sheet

1. ☐ As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fees, this Authority did not invite payment of additional fees.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☒ No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

1-89(partially)

Remark on Protest

- ☐ The additional search fees were accompanied by the applicant's protest and, where applicable, the payment of a protest fee.
- ☐ The additional search fees were accompanied by the applicant's protest but the applicable protest fee was not paid within the time limit specified in the invitation.
- ☐ No protest accompanied the payment of additional search fees.

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-89(partially)

Composition comprising at least 3 agents and the use thereof for the treatment of cancer

2. claims: 1-89(partially)

Composition comprising at least 4 agents and the use thereof for the treatment of cancer

3. claims: 1-89(partially)

Composition comprising at least 5 agents and the use thereof for the treatment of cancer

4. claims: 1-89(partially)

Composition comprising at least 6 agents and the use thereof for the treatment of cancer

5. claims: 1-89(partially)

Composition comprising at least 7 agents and the use thereof for the treatment of cancer

6. claims: 1-89(partially)

Composition comprising at least 8 agents and the use thereof for the treatment of cancer

7. claims: 1-89(partially)

Composition comprising one or more agents and the use thereof for the treatment of cancer
