FIG. 1 is a front perspective view of pantyhose showing our new design;

FIG. 2 is a rear elevational view thereof; and,

FIG. 3 is a side elevational view thereof the opposite side is a mirror image.

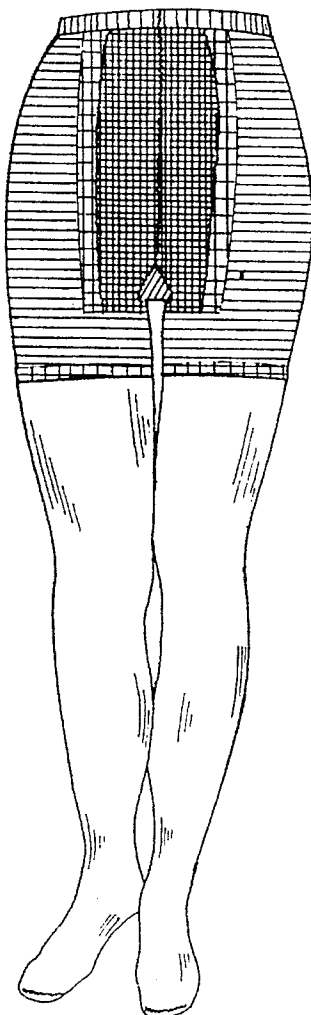

The characteristic feature of our design resides in the specific ornamentation of the front and rear panel in combination with the pantyhose as best illustrated in FIG. 1 wherein a plurality of vertical panels extend substantially from the crotch portion to the waistband, wherein each of the panels on each side of the center of the garment are formed of a different yarn and stitch configuration.
