(54) **Arrangement and system for handling documents of value**

(57) The invention relates to a device (1) for handling valuable documents during transportation of valuable documents between supplier (2) and receiver (3) of valuable documents by means of vehicle for transportation of valuable documents (5) and security transportation container (6) from securable receiver box for valuable documents (7-7^n) arranged at the supplier (2).

According to the invention, a docking station (8) is arranged at the supplier (2) for secure automatic closed transfer of valuable documents (4) to a said security transportation container (6).

The invention also relates to a system for banknote handling.

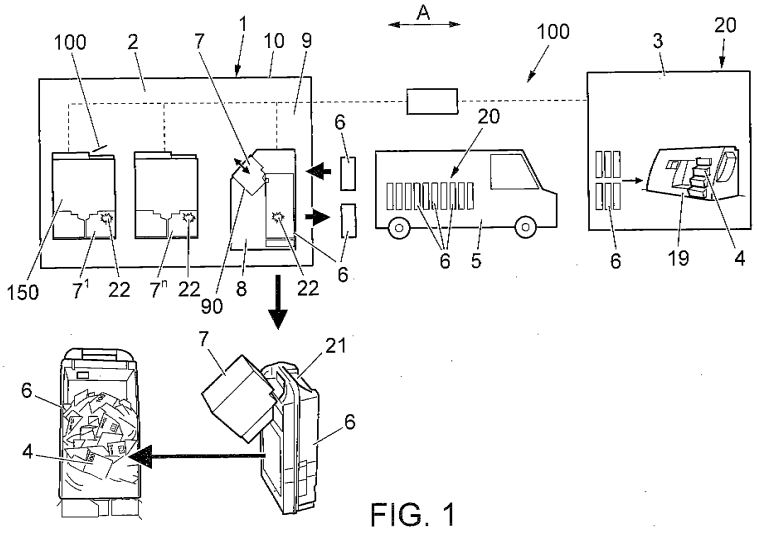

FIG. 1

CATEGORY OF CITED DOCUMENTS

X : particularly relevant if taken alone
Y : particularly relevant if combined with another document of the same category
A : technological background
O : non-written disclosure
P : intermediate document

T : theory or principle underlying the invention
E : earlier patent document, but published on, or after the filing date
D : document cited in the application
L : document cited for other reasons

& : member of the same patent family, corresponding document
