(57) **ABSTRACT**

The cap is made into pyramid shape, and made use of the thin permanent magnet iron flake with intensity magnetic field. It can strengthen the effect of the biological magnetism of the human body and strengthen the human brain with magnetic field. This is a new type and practicable cap.

## PYRAMID CAP WITH INTENSITY MAGNETIC FIELD

### FIELD OF THE INVENTION

**[0001]** The present invention provides a Pyramid Shaped Cap with intensity magnetic field. It can strengthen the effect of the biological magnetism of the human body and strengthen the human brain with magnetic field. This is a new type and practicable cap.

### BACKGROUND OF THE INVENTION

**[0002]** At the moment the function of regular caps available in the market are to shade the sun, keep warm and protect the head. The regular caps can protect our head from the disturbance of weather and surroundings, and our work and normal life are not affected while wearing them. The function of regular caps is only to provide protection for us, but it does not give any healthy function to our human brain and body. And there is no special shape of the caps. Most of them are round shaped. With development of study of magnetism and biology, it is known to us that high intensity magnetic field can affect the biological molecule, cells, nerves and various organs. If we can apply these functions of high intensity of magnetic field to human brain, then it will improve the biological magnetism of our body and also will improve the function of human brain.

### SUMMARY OF THE INVENTION

**[0003]** Purpose of this invention is to provide A Pyramid Shaped Cap with Intensity Magnetic Field, which can improve the function of our human brain. This Invigorating Cap can improve the human brain with magnetic field. It has a new shape with the capability to remind us of the mysterious universe energy.

**[0004]** In order to achieve above purpose the proposal of this invention is: Pyramid-Shaped Cap with inlaid metal chips of high intensity magnetic field, with a Head Loop inside the cap. The Head Loop is installed in the central area inside the pyramid-shaped cap.

**[0005]** 1. The Shape of above-mentioned Pyramid-shaped cap indicates that the outside shape of the cap is four-sides-cone shaped and its bottom is quadrilateral-shaped.

**[0006]** 2. Above-mentioned Pyramid-shaped cap indicates that a triangle metal chip of high intensity magnetic field is inlaid in the four sides of the cap.

**[0007]** 3. Above-mentioned Pyramid-shaped cap indicates that in order to achieve the prime effect the bottom size and height are designed exactly according to the scale of the Pyramid. Its hypotenuse E equals to 0.952 bottom line D.

**[0008]** 4. Above-mentioned Pyramid-shaped cap indicates that the loop is a suitable structure for human to wear. Usually round-shaped loop is the simplest one. But we don't exclude other available existing structures. For example: regular concave structure, etc. In order to make the cap suitable for anyone to wear, the Head Loop is designed based on different sizes of human heads.

**[0009]** 5. Above-mentioned Pyramid-shaped cap is made of cloth, linen, Paper board or other materials.

**[0010]** 6. Above-mentioned Pyramid-shaped cap: In order to make it easy to fold, the cap is made of flexible

materials. The head loop is also made of cloth, leather or other flexible materials to enable the cap to be folded.

**[0011]** In brief, this proposal is to provide a unique, new civil use Invigorating Cap based on the principle that high intensity magnetic field can invigorate human brain. It is suggested to wear it two hours a day, in the morning and at night before going to bed, while driving or learning. Advantages of the invention compared with existing technology:

**[0012]** 1. As the inlaid metal chips with high intensity magnetic field, it can improve the biological effect of human body and invigorate human brain with magnetic field.

**[0013]** 2. The Four-sides-cone shaped cap is designed utilizing the ratio of special solid geometry of the pyramid. Its shape is unique and it has the function to remind us of the mysterious universe energy. It is a new art of caps.

### BRIEF DESCRIPTION OF THE DRAWINGS

**[0014]** Drawing 1: 3 dimensional drawing. Point C is top end, D is bottom line, E is hypotenuse, F and G are the bottom lines and the top end of the Pyramid.

**[0015]** Drawing 2: Is the Cutaway view of F-G-C. F-G-C is the cutaway view of the cap. We can see from the drawing that there is cavity inside the cutaway view. H-I-J-K is the cutaway view of the Head Loop.

**[0016]** Drawing 3: Is the vertical view of the invention. Form the drawing we can see the four side lines and four top ends. The dotted line in the middle indicates the Head Loop.

**[0017]** In Above attached drawings: 1: Cloth 2. Metal Chip 3: Head Loop

### DETAIL DESCRIPTION OF THE INVENTION

**[0018]** Further explanation of the invention with attached drawings and examples: Example: refer to Attached drawing 1-3, A Pyramid Shaped Brain Invigorating Cap with Intensity Magnetic Field made of cloth 1, triangle metal chips 2 of high intensity magnetic field is inlaid in the four sides of the cap. A head loop was installed inside the cap 3. The Head Loop 3 is fixed in the central part of the Pyramid-shaped cap. The bottom line and height are designed exactly according to the scale of the Pyramid. Its hypotenuse E equals to 0.952 bottom line D. The bottom line D should be designed according to the size of human heads. The materials of the cap 1 are flexible materials: like linen or silk. The Head Loop 3 is also made of flexible materials enabling the cap to be folded or not folded. The caps are made of different sizes according to the sizes of human head so it is suitable for anyone to wear. The above examples are to explain the technical concept and uniqueness of the invention. Its purpose is to let people who are familiar with the technology of this invention to materialize this project, but they are not allowed to use it to limit the scope of its protection. The scope of protection of this invention includes any modification and equivalent alteration based on the principle of this invention.

1. A Pyramid Shaped Cap with intensity magnetic field. Specialty of the Cap: Pyramid-Shaped, inlaid metal chips of high intensity magnetic field, it comes with a Head-Loop inside the cap, and the Head Loop was installed in the central area inside the pyramid-shaped cap.

2. The specialty of the Pyramid-Shaped Cap described in claim 1 wherein that a triangle metal chip of high intensity magnetic field is inlaid in the sides of the cap.

3. The specialty of the Pyramid-Shaped Cap described in claim 1 wherein that the bottom size and height are designed exactly according to the scale of the Pyramid. Its hypotenuse E equals to 0.952 bottom line D.

4. The specialty of the Pyramid-Shaped Cap described in claim wherein that the Head Loop inside the cap is designed based on the different sizes of human heads.

5. The specialty of the Pyramid-Shaped Cap described in claim 1 wherein that the Head Loop is designed with a folding capacity.

6. The specialty of the Pyramid-Shaped Cap described in claim 1 wherein that the Head Loop is made of cloth, leather, silk or plastic materials.
