Abstract: The present invention is referred to a magnetic device of slidable adjustment linearly or angularly - and optionally of removable fixing for at least two confrontable or overlapping areas, which can pertain to a same object or can pertain to different objects. The magnetic device of slidable adjustment is applied to a diversity of objects that have pieces capable of being removably vinculated in an adjustment relationship, linear or angular adjustment, wherein it can be convenient to have adjustment means, including the tight/loose type, near/far from the fixing position type, angular adjustment type, among others.
**INTERNATIONAL SEARCH REPORT**

International application No.  PCT/US 07/00327

A. CLASSIFICATION OF SUBJECT MATTER

*IPCG* - A44B 1/44 (2007.01)

USPC - 24/303

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

*IPCG* - A44B 01/44 (2007.01)

USPC - 24/303

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

*IPCG* - A44B 01/44 (2007.01) - see keyword below -

USPC - 24/303; 335/219 - see keyword below -

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

PubWEST (USPT,PGDB,EPAB,JPAB); Google patent, Google scholar

Search terms used: Layer, slidable, permanent, magnet, multi-layer, multilayer, zipper, snap, latch

C. DOCUMENTS CONSIDERED TO BE RELEVANT

I: Further documents are listed in the continuation of Box C. [ ]

- "A" document defining the general state of the art which is not considered to be of particular relevance
- "E" earlier application or patent but published on or after the international filing date
- "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- "O" document referring to an oral disclosure, use, exhibition or other means
- "P" document published prior to the international filing date but later than the priority date claimed
- "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- "X" document of particular relevance, the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- "Y" document of particular relevance, the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
- "&" document member of the same patent family

Date of the actual completion of the international search

10 Sep 2007 (10.09.2007)

Date of mailing of the international search report

### International Search Report

**International application No**

PCT/US 07/00327

---

**Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)**

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. [ ] Claims Nos because they relate to subject matter not required to be searched by this Authority, namely

2. [D] Claims Nos because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically

3. [X] Claims Nos 4-23 because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 64(a)

---

**Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)**

This International Searching Authority found multiple inventions in this international application, as follows:

1. [ ] As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims

2. [ ] As all searchable claims could be searched without effort justifying additional fees, this Authority did not invite payment of additional fees

3. [ ] As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos

4. [ ] No required additional search fees were timely paid by the applicant Consequently, this international search report is restricted to the invention first mentioned in the claims, it is covered by claims Nos

---

**Remark on Protest**

[ ] The additional search fees were accompanied by the applicant's protest and, where applicable, the payment of a protest fee

[ ] The additional search fees were accompanied by the applicant's protest but the applicable protest fee was not paid within the time limit specified in the invitation

[ ] No protest accompanied the payment of additional search fees
