(54) Title: OPTIMIZED SECURE MEDIA PLAYBACK CONTROL

(57) Abstract: A media player (105) manages and controls rights to playback of media content (403) by the media player, which stores, during a registration (401) process in which the media player need not be connected to an external computing system, information (402) used by the media player to control playback. A minimal amount of the media player's memory is used to store the information used to control playback.
