

UNITED STATES PATENT OFFICE.

EVELINE HUNGERFORD, OF SAN FRANCISCO, CALIFORNIA.

IMPROVEMENT IN MEDICAL COMPOUNDS OR LINIMENTS.

Specification forming part of Letters Patent No. **146,534**, dated January 20, 1874; application filed December 11, 1873.

To all whom it may concern:

Be it known that I, EVELINE HUNGERFORD, of San Francisco, California, have invented a new and Improved Medical Compound for the Cure of Lumbago, Neuralgia, Gout, and kindred diseases; and I hereby declare the following to be a full, clear, and exact description thereof.

My said improved compound consists of belladonna-oil, croton-oil, turpentine, naphthaline, camphor, white wax, and spermaceti, which I generally mix in about the quantities of the following formula: Belladonna-oil, twenty grains; croton-oil, twenty grains; turpentine, twenty grains; naphthaline, twenty grains; camphor, twenty grains; white wax, twenty grains; spermaceti, twenty grains.

These quantities may be slightly varied with reference to each other without departing from the spirit of my invention.

The compound is made into an ointment or pomade, and applied to the parts affected.

Having thus described my invention, what I claim as new, and desire to secure by Letters Patent, is—

The medical compound herein described, for the purpose set forth.

EVELINE HUNGERFORD.
