**Claim**

The ornamental design for an in-vehicle display controller, as shown and described.

**Description**

FIG. 1 is a top front perspective view of an in-vehicle display controller showing our new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a left side elevational view thereof;

FIG. 5 is a right side elevational view thereof;

FIG. 6 is a top plan view thereof;

FIG. 7 is a bottom plan view thereof; and,

FIG. 8 is a perspective view thereof showing the present in-vehicle display controller installed in a vehicle.

The broken lines depict environmental subject matter only and form no part of the claimed design.
