(57) Rezumat:

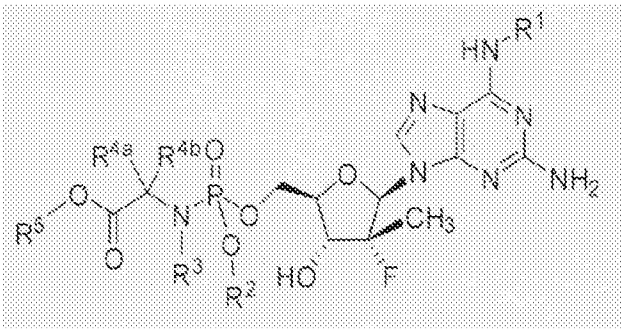

1

Prezenta invenţie constă în utilizarea fosforamidaţilor de nucleotide purinice sau a sărurilor farmaceutic acceptabile ale acestora, administrate într-o cantitate eficientă pentru tratamentul sau prevenirea COVID-19, infecţiei cauzate de virusul SARS CoV-2 la o gazdă, de exemplu un om, care are nevoie de aceasta.

(57) Abstract:

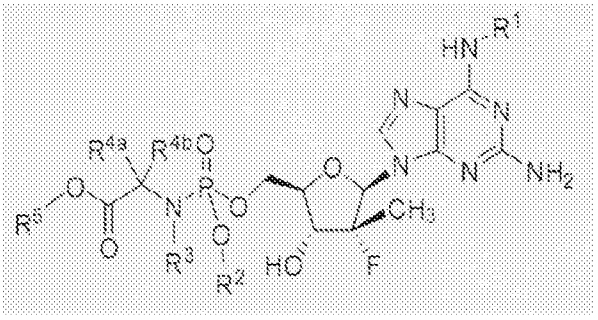

1

The present invention consists in the use of purine nucleotide phosphoramidates or pharmaceutically acceptable salts thereof administered in an effective amount for the treatment or prevention of COVID-19, an infection caused by the SARS CoV-2 virus in a host, for example a human, in need thereof.

1

Настоящее изобретение состоит в применении фосфорамидатов пуриновых нуклеотидов или их фармацевтически приемлемых солей, вводимых в эффективном количестве для лечения или предупреждения COVID-19, инфекции, вызываемой вирусом SARS CoV-2 у хозяина, например человека, нуждающегося в этом.
