(54) **Production assembly tool**

(57) A mounting assembly for a motor (32) encased within a power tool housing (12), comprising: a transmission cover mounted within said housing including first alignment means; a motor (32) housing encasing said motor (32) and including second alignment means; said first alignment means mating with said second mounting means to correctly align said motor (32) within

said housing upon said motor (32) being inserted into said housing through said opening; and cap means (34) removably affixed to said housing (12) over said opening, said cap means (34) biasing said motor (32) toward the front of said housing upon said cap means (34) being affixed to said housing (12), said cap means (34) providing access to said motor (32) through said opening upon removal of said cap means (34).

Office

Application Number
EP 01 11 8595

CLAIMS INCURRING FEES

The present European patent application comprised at the time of filing more than ten claims.

- ☐ Only part of the claims have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims and for those claims for which claims fees have been paid, namely claim(s):
- ☐ No claims fees have been paid within the prescribed time limit. The present European search report has been drawn up for the first ten claims.

LACK OF UNITY OF INVENTION

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

see sheet B

- ☐ All further search fees have been paid within the fixed time limit. The present European search report has been drawn up for all claims.
- ☐ As all searchable claims could be searched without effort justifying an additional fee, the Search Division did not invite payment of any additional fee.
- ☐ Only part of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the inventions in respect of which search fees have been paid, namely claims:
- ☒ None of the further search fees have been paid within the fixed time limit. The present European search report has been drawn up for those parts of the European patent application which relate to the invention first mentioned in the claims, namely claims:

1-4

European Patent
Office

**LACK OF UNITY OF INVENTION
SHEET B**

Application Number
EP 01 11 8595

The Search Division considers that the present European patent application does not comply with the requirements of unity of invention and relates to several inventions or groups of inventions, namely:

1. Claims: 1-4

a cap means

2. Claim : 5

An overmold coating

**ANNEX TO THE EUROPEAN SEARCH REPORT
ON EUROPEAN PATENT APPLICATION NO.**

EP 01 11 8595

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report.
The members are as contained in the European Patent Office EDP file on
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
