Ingredients:
- Perfume/Aftershave
- Towelettes

Brand Name: Girl/Guy, 2.5 oz, 33 ml.

3 inches = 7.5 cm, 1 1/2 inch = 3.5 cm.
FLY GIRL/GUY PERFUME/AFTERSHAVE TOWElettes FOR AIR TRAVELERS

RELATED APPLICATIONS

[0001] Single perfume sample towelettes, baby wipes, medical alcohol swabs.

[0002] This invention was thought up, because of the carry on restrictions set in place because of 9/11. Specifically the amount of liquids and containers that can be in carry on luggage.

[0003] After having perfume taken from me from time to time, I stopped packing it. So when I get to where I am going, I have to either, buy or borrow a squirt of perfume from someone. Of course if I buy perfume I have to leave it because I can’t carry it on the plane on the trip back. It gets to be expensive.

[0004] I like to smell good when I travel, sometimes I just don’t wear Anything. I feel like the freedom to smell good has been taken away from me.

[0005] A travel advisor suggested that you take a few samples from the perfume counter next time you go. Those are one application samples. You have to take a few if allowed, to travel with. Who Goes to the perfume counter before traveling?

DESCRIPTION

[0006] 10-20 perfume/aftershave towelettes in a small clear Plastic jar with a slotted inner cap for dispensing towelettes, with a standard screw cap to fit a 1½" inch in diameter jar.

DETAILED DESCRIPTION FROM FIGURES

FROM DRAWING PAGE

[0007] FIG. 1: Side view of clear plastic 1" inch, 2.5 cm. tall, 1½" inch, 4 cm. Wide jar.
