(54) Title: TABLE

(57) Abstract: A table may include a table top with a first section that is selectively movable between a use position and a collapsed position, and a second section that is selectively movable between a use position and a collapsed position. The table may also include a first pedestal that is movable between a first position in which the first pedestal supports the first section of the table top in the use position and a second position in which the first section of the table top may be moved between the use position and the collapsed position. The table may include a second pedestal that is movable between a first position in which the second pedestal supports the second section of the table top in the use position and a second position in which the second section of the table top may be moved between the use position and the collapsed position.
