**Henderson, Nevada 89052 (US)**

(54) **Multi-property enterprise promotions**

(57) Multiple, simultaneous enterprise promotions are enabled by an enterprise promotions application, the promotions definable to apply to a single location, a plurality of locations, or all of the enterprise's locations. The enterprise promotions application receives data from the locations regarding patron activity, from which the system generates entries in one or more promotions according to each promotion's rules. For a promotion, patrons' entries can be activated for one or more drawings, wherein one or more winning entries are selected. The system also provides for the automatic, rules-based generation of comps and the management thereof.

Office

**DECLARATION**

Application Number

which under Rule 45 of the European Patent Convention EP 03 25 0474 shall be considered, for the purposes of subsequent proceedings, as the European search report

<p>The Search Division considers that the present application, does not comply with the provisions of the EPC to such an extent that it is not possible to carry out a meaningful search into the state of the art on the basis of all claims</p>		<p><b>CLASSIFICATION OF THE APPLICATION (Int.Cl.7)</b></p>
<p>Reason:</p>		<p>G06F17/60</p>
<p>The claims relate to subject matter excluded from patentability under Art. 52(2) and (3) EPC. Given that the claims are formulated in terms of such subject matter or merely specify commonplace features relating to its technological implementation, the search examiner could not establish any technical problem which might potentially have required an inventive step to overcome. Hence it was not possible to carry out a meaningful search into the state of the art (Rule 45 EPC). See also Guidelines Part B Chapter VIII, 1-6.</p> <p>The applicant's attention is drawn to the fact that a search may be carried out during examination following a declaration of no search under Rule 45 EPC, should the problems which led to the declaration being issued be overcome (see EPC Guideline C-VI, 8.5).</p> <p style="text-align: center;">--- -----</p>		
<p>Place of search <b>THE HAGUE</b></p>	<p>Date <b>23 March 2004</b></p>	<p>Examiner <b>Cîrstet, A</b></p>
