# UNITED STATES PATENT OFFICE.

OTIS H. MILLER, OF WASHINGTON, DISTRICT OF COLUMBIA, ASSIGNOR OF  
ONE-HALF TO WILLIAM W. BRIDE, OF SAME PLACE.

## DESIGN FOR A PUZZLE-BOX.

SPECIFICATION forming part of Design No. 29,648, dated November 8, 1898.

Application filed March 7, 1898. Serial No. 873,009. Term of patent 7 years.

*To all whom it may concern:*

Be it known that I, OTIS H. MILLER, a citizen of the United States, residing at Washington, in the District of Columbia, have invented and produced a new and original Design for a Puzzle-Box; and I do declare the following to be a full, clear, and exact description of the invention, such as will enable others skilled in the art to which it appertains to make and use the same, reference being had to the accompanying drawings, and to the figures of reference marked thereon, which form a part of this specification.

My invention relates to a new and original design for a puzzle-box.

Figure 1 is a perspective view showing my new design. Fig. 2 is a sectional view taken on the line *x x*, Fig. 1.

As shown in the drawings, the leading or

material features of my design consist of a disk 1, having an upturned flange 2, and a post or stud 3, extending upwardly from the center of said disk, such post or stud 3 having an inverted-cone-shaped depression 4 formed in its top, as best seen in Fig. 2. It will be noticed that the flange 2 extends upward much higher than does the post or stud.

Having described my invention, what I claim as new, and desire to secure by Letters Patent, is—

The design for a puzzle-box, as herein shown and described.

In testimony whereof I affix my signature in presence of two witnesses.

OTIS H. MILLER.
