FIG. 1 is a perspective view as seen from a position in front of, at one side of, and above the top level of one illustrative embodiment of my new design, with the top access door and the front access door shown in partial open position;

FIG. 2 is another perspective view as seen from a vantage point adjacent to the opposite end of the design and in front of, at one side of, and above said opposite end of the design, and with the top and front access doors in closed positions;

FIG. 3 is a top plan view thereof;

FIG. 4 is a left end or side elevational view thereof;

FIG. 5 is a front elevational view thereof—it being understood that the opposite or rear elevation thereof is substantially identical, although positionally reversed, and with the rear panel being closed and without the provision of a rear access door;

FIG. 6 is a right end or side elevational view thereof;

FIG. 7 is a bottom plan view thereof.

and

I claim:

The ornamental design for a wheeled dual access clothes hamper, substantially as shown and described.
