[57] CLAIM

The ornamental design for a surgical incision spreading device, as shown and described.

DESCRIPTION

- FIG. 1 is a top perspective view of a surgical incision spreading device of the invention in a first deployment configuration;
- FIG. 2 is a top elevational view of the surgical incision spreading device of FIG. 1;
- FIG. 3 is a bottom elevational view of the surgical incision spreading device of FIG. 1;
- FIG. 4 is a right elevational view of the surgical incision spreading device of FIG. 1, the left elevational view being the same;
- FIG. 5 is a front elevational view of the surgical incision spreading device of FIG. 1, the rear elevational view being the same;
- FIG. 6 is top perspective view of the surgical incision spreading device of FIG. 1, but illustrating the surgical incision spreading device in a second deployment configuration:
- FIG. 7 is a top elevational view of the surgical incision spreading device of FIG. 6
- FIG. 8 is a bottom elevational view of the surgical incision spreading device of FIG. 6;
- FIG. 9 is a right elevational view of the surgical incision spreading device of FIG. 6, the left elevational view being the same; and,
- FIG. 10 is an front elevational view of the surgical incision spreading device of FIG. 6, the rear elevational view being the same.
