(57) **CLAIM**

The ornamental design for a rotary atomizer component, as shown and described.

DESCRIPTION

FIG. **1** is an upper perspective view of a rotary atomizer component showing a first representation of our new design;

FIG. **2** is a lower perspective view of a rotary atomizer component showing the first representation of our new design;

FIG. **3** is a front view of a rotary atomizer component showing the first representation of our new design;

FIG. **4** is a rear view of a rotary atomizer component showing the first representation of our new design;

FIG. **5** is a lateral view of a rotary atomizer component showing the first representation of our new design;

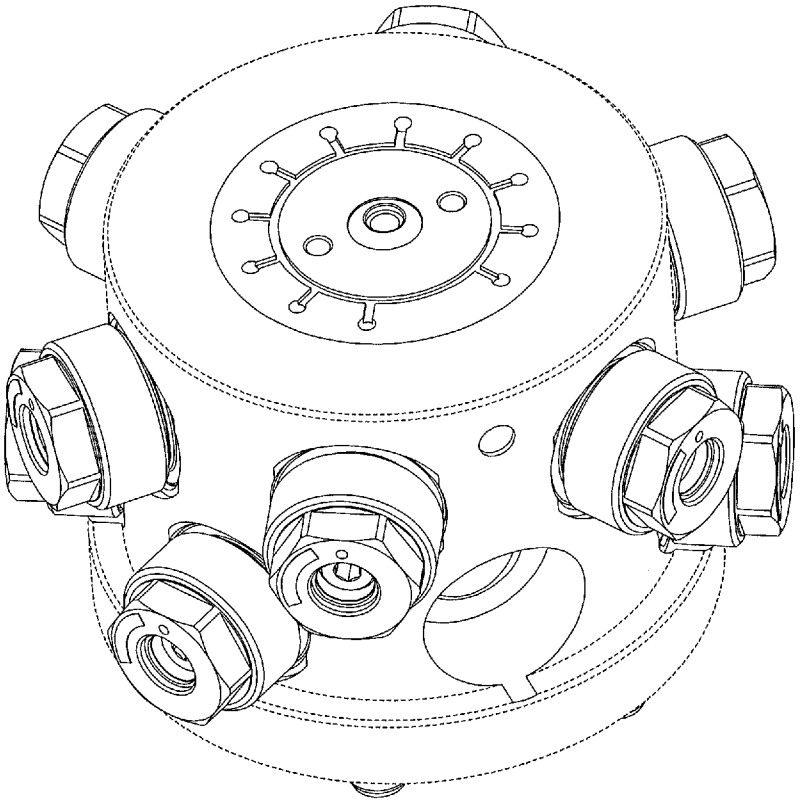

FIG. **6** is another lateral view of a rotary atomizer component showing the first representation of our new design;

FIG. **7** is a top view of a rotary atomizer component showing the first representation of our new design; and,

FIG. **8** is a bottom view of a rotary atomizer component showing the first representation of our new design.

The broken lines in the figures are directed to environment and are for illustrative purposes only. The broken lines form no part of the claimed design.
