DESIGN.

C. A. MAYNARD.
FULCRUM SHOE FOR NAIL PULLERS.

No. 27,571. Patented Aug. 24, 1897.

Charles A. Maynard. Inventor.
By Atty. Earl H. Noyes.
UNITED STATES PATENT OFFICE.

CHARLES A. MAYNARD, OF SPRINGFIELD, MASSACHUSETTS, ASSIGNOR TO DEXTER W. GOODELL, OF GREENFIELD, MASSACHUSETTS.

DESIGN FOR A FULCRUM-SHOE FOR NAIL-PULLERS.

SPECIFICATION forming part of Design No. 27,571, dated August 24, 1897.

Application filed July 8, 1897. Serial No. 845,688. Term of patent 14 years.

To all whom it may concern:

Be it known that I, CHARLES A. MAYNARD, of Springfield, in the county of Hampden and State of Massachusetts, have invented a new Design for Fulfur-um-Shoes of Nail-Pullers; and I do hereby declare the following, when taken in connection with the accompanying drawing and the letters of reference marked thereon, to be a full, clear, and exact description of the same, and which said drawing constitutes part of this specification and represents a perspective view of a fulcrum-shoe embodying my design.

This invention relates to a design for the fulcrum-shoe for nail-pullers; and it consists in the configuration as hereinafter described, and shown in the accompanying illustration.

From the forward end of the body A projects a toe B, the under face of which is rounded, and from the rear end of the body a handle C projects upward and outward. At the end of the body below the handle C is a hammer-faced lug D. Vertically through the body is a long slot E, and in the rear of the slot, and also vertically through the body, is a rectangular opening F. Transversely through one side of the body are holes G H, opening, respectively, into the slot E and opening F, all as shown in the accompanying illustration.

I claim—

The design for the fulcrum-shoe of nail-pullers, substantially as shown and described.

In testimony whereof I have signed this specification in the presence of two subscribing witnesses.

CHAS. A. MAYNARD.

Witnesses:

GEORGE W. FAIRFIELD,
ARTHUR A. BETH.
