(57) **CLAIM**

The ornamental design for a display panel portion with an animated graphical user interface, as shown and described.

DESCRIPTION

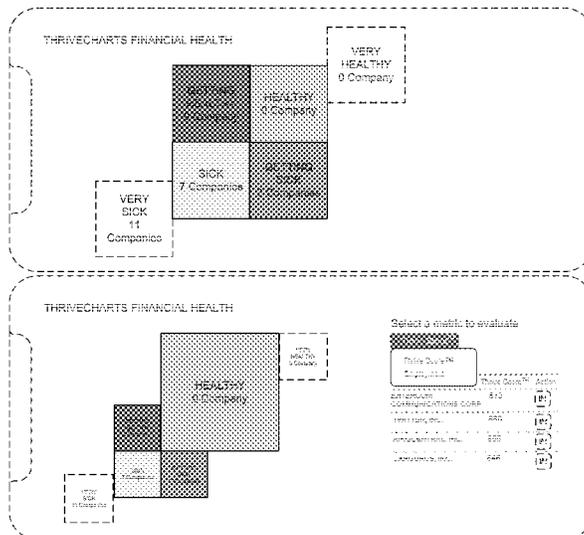

FIG. 1 is a front view of a display panel portion with an animated graphical user interface, showing a first image in a sequence of an animated graphical user interface of our new design;

FIG. 2 is a second image in the sequence thereof; and, FIG. 3 is a third image in the sequence thereof.

The appearance of the transitional image sequentially transitions between FIGS. 1-3. The process or period in which one image transitions to another image forms no part of the claimed design.

The outermost broken lines showing a portion of a display panel are included for the purpose of illustrating portions of the article and form no part of the claimed design. The remaining broken lines illustrate portions of the graphical user interface that form no part of the claimed design.
