Claim
The ornamental design for the disposable CPAP connector for a patient facemask, as shown and described.

Description
FIG. 1 is a first perspective view taken from above and a front end of a disposable CPAP connector for a patient facemask showing our new design;
FIG. 2 is a second perspective view taken from below and a rear end of the connector shown in FIG. 1;
FIG. 3 is a top view thereof;
FIG. 4 is a bottom view thereof;
FIG. 5 is a right side view thereof;
FIG. 6 is a left side view thereof;
FIG. 7 is a front end view thereof; and,
FIG. 8 is a rear end view thereof.
The broken line showing of portions of the article is included for the purpose of illustrating structural environment and forms no part of the claimed design.
