(54) Dispensing adhesive peelable page markers

(57) Method of making devices for dispensing adhesive peelable page markers (12-34), and such page markers themselves, provides a mounting for an assembly of such page markers (12-34). The page markers (12-34) are arranged in the form of an array in which the page markers form a horizontally-extended stack disposed edge-to-edge or spaced apart. The arrays are assembled on the mountings by an in-line or all in-one-pass process of web merger. Also a page marking device for a multi-page printed products such as a magazine or journal, and a corresponding method of using same provides an adhesive mounting portion of the page-marking device which includes an extendable display element adapted to carry and display printed text, data or the like and which can be moved between an extended display position and a retracted or folded condition.
