(88) Date of publication of the international search report:

5 October 2000 (05.10.00)

# (54) Title: ELECTRONIC PAYMENT SYSTEM UTILIZING INTERMEDIARY ACCOUNT

#### (57) Abstract

Payments in cash are submitted to a merchant at a point of sale (32). The payment transaction (55) is effected electronically to credit the end user's intermediary account (40). Subsequent electronic communications (114) between the intermediary account (40) and a vendor site (112) effect payment to the vendor for goods or services on behalf of the end user (20). This system leverages the existing credit card payment system (52) in reverse so as to provide the convenience of submitting cash payments at a multitude of merchant locations (32).
