CLAIM

The ornamental design for a weather sensor for connection to an irrigation controller, as shown and described.

DESCRIPTION

FIG. 1 is an isometric view taken from the front of the weather sensor for connection to an irrigation controller;

FIG. 2 is a front elevation view of the weather sensor for connection to an irrigation controller;

FIG. 3 is a rear elevation view of the weather sensor for connection to an irrigation controller;

FIG. 4 is an end elevation view of the weather sensor for connection to an irrigation controller taken from the right side of FIG. 1;

FIG. 5 is an end elevation view of the weather sensor for connection to an irrigation controller taken from the left side of FIG. 1;

FIG. 6 is a top elevation view of the weather sensor for connection to an irrigation controller; and,

FIG. 7 is a bottom elevation view of the weather sensor for connection to an irrigation controller.
