(54) Title: A SYSTEM FOR AGGREGATING AND DISPLAYING SYNDICATED NEWS FEEDS

FIGURE 5A

(57) Abstract: The invention relates to a system for aggregating and displaying syndicated news feeds, said system comprising a graphical user interface comprising at least a first and a second user spaces, a tag generator engine to generate relevant tags from the incoming content of each syndicated news feed, a processor operatively coupled to the graphical user interface and the tag generator engine for displaying on the first user space representations of the relevant tags as a function of said tags occurrences, said representations adapted to be dragged and dropped on to the second user space, said processor being further arranged to display in the second user space the content associate to a tag when its representation is dropped into said second user space.

# INTERNATIONAL SEARCH REPORT

International application No.  
PCT/IB2008/053131

## Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1.  Claims Nos.:  
because they relate to subject matter not required to be searched by this Authority, namely:
  
2.  Claims Nos.:  
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
  
3.  Claims Nos.:  
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

## Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

see additional sheet

1.  As all required additional search fees were timely paid by the applicant, this international search report covers allsearchable claims.
  
2.  As all searchable claims could be searched without effort justifying an additional fees, this Authority did not invite payment of additional fees.
  
3.  As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:
  
4.  No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

### Remark on Protest

- The additional search fees were accompanied by the applicant's protest and, where applicable, the payment of a protest fee.
- The additional search fees were accompanied by the applicant's protest but the applicable protest fee was not paid within the time limit specified in the invitation.
- No protest accompanied the payment of additional search fees.

**FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210**

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-11,32

Method, processor, and computer readable carrier for identifying items of a content library.

2. claims: 12-19, 33

Method, processor, and computer readable carrier for sharing data items over a network.

3. claims: 20-31, 34

Method, processor, and computer readable carrier for generating an update of a web page.
