(54) Title: Improved tool for removing a fastening means
(56) Cited documents: US 6089396 A
(57) Abstract:

A method for removing a fastening means, especially an anti theft fastening means for wheel covers or rims, said method comprising providing at least two holes in said fastening means, inserting a pin in each of said at least two holes fitting an engaging surface of a tool with each pin, and removing said fastening means by applying a rotating force to said tool to turn said fastening means.
