METHOD AND APPARATUS FOR PARAFFIN TREATMENT OF THE SKIN

A device and method for the sanitary provision of wax to the skin of patrons. Paraffin wax containers shaped to conform to the patrons face, hands, and feet provide individual reservoirs of paraffin which are heated and subsequently applied to the patron’s body. Exothermic pouches are provided to heat the individual portions of paraffin wax housed in the body-part-shaped containers.
INTERNATIONAL SEARCH REPORT

International application No. PCT /IB2009/006830

A. CLASSIFICATION OF SUBJECT MATTER

Int. Cl.
A45D 44/12 (2006.0 1)

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)

DWPI & EPODOC - Keywords (skin, treatment, heat, paraffin, container) and like terms

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category* Citation of document, with indication, where appropriate, of the relevant passages Relevant to claim No.

A Patent Abstracts of Japan
JP 2008-125708 (YAEKO) 05 June 2008
Abstract

Abstract

Further documents are listed in the continuation of Box C
X See patent family annex

* Special categories of cited documents:
  "A" document defining the general state of the art which is not considered to be of particular relevance
  "E" earlier application or patent but published on or after the international filing date
  "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
  "O" document referring to an oral disclosure, use, exhibition or other means
  "P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family

Date of the actual completion of the international search
22 July 201 1

Date of mailing of the international search report
25 July 201 1
