(57) **CLAIM**

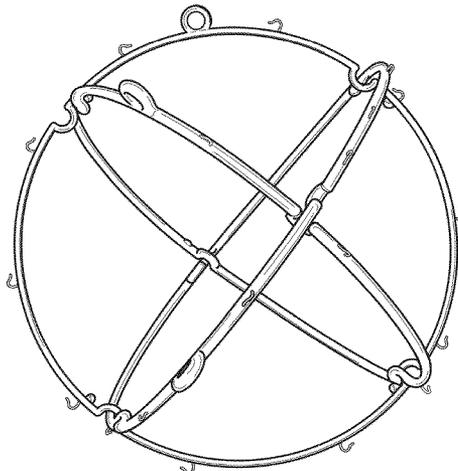

The ornamental design for a three dimensional shape for attaching decorative objects, as shown and described.

**DESCRIPTION**

FIG. 1 is a perspective view of a three dimensional shape for attaching decorative objects showing a first embodiment of my new design;

FIG. 2 is a front elevational view thereof;  
 FIG. 3 is a perspective view of one of the three ring elements which form the decorative shape thereof, with the remaining rings omitted for clarity of illustration;  
 FIG. 4 is an additional perspective view of one of the three ring elements which form the decorative shape thereof, with the remaining rings omitted for clarity of illustration;  
 FIG. 5 is a front elevational view of one of the three ring elements thereof;  
 FIG. 6 is a rear elevational view of one of the three ring elements thereof;  
 FIG. 7 is a top plan view of one of the three ring elements thereof;  
 FIG. 8 is a left side elevational view of one of the three ring elements thereof;  
 FIG. 9 is a right side elevational view of one of the three ring elements thereof;  
 FIG. 10 is a bottom plan view of one of the three ring elements thereof;  
 FIG. 11 is a perspective view of a three dimensional shape for attaching decorative objects showing a second embodiment of my new design;  
 FIG. 12 is a front elevational view thereof;  
 FIG. 13 is a perspective view of one of the three ring elements which form the decorative shape thereof, with the remaining rings omitted for clarity of illustration;  
 FIG. 14 is an additional perspective view of one of the three ring elements which form the decorative shape thereof, with the remaining rings omitted for clarity of illustration;  
 FIG. 15 is a front elevational view of one of the three ring elements thereof;  
 FIG. 16 is a rear elevational view of one of the three ring elements thereof;  
 FIG. 17 is a top plan view of one of the three ring elements thereof;  
 FIG. 18 is a left side elevational view of one of the three ring elements thereof;  
 FIG. 19 is a right side elevational view of one of the three ring elements thereof; and,  
 FIG. 20 is a bottom plan view of one of the three ring elements thereof.
