UNITED STATES PATENT OFFICE.

WILLIAM J. J. BOWMAN, OF TRENTON, NEW JERSEY, ASSIGNOR TO THE 
J. L. MOTT IRON WORKS, OF NEW YORK, N. Y.

DESIGN FOR A BATH-TUB.

SPECIFICATION forming part of Design No. 82,713, dated May 22, 1900.
Application filed April 21, 1900. Serial No. 13,813. Term of patent 7 years.

To all whom it may concern:

Be it known that I, WILLIAM J. J. BOWMAN, a citizen of the United States, residing at the city of Trenton, in the county of Mercer and State of New Jersey, have invented and produced a new and original Design for a Bath-Tub, of which the following is a specification, reference being had to the accompanying drawings, forming a part thereof, in which—

Figure 1 is a plan, and Fig. 2 an elevation, of the bath-tub, showing my design; and Fig. 3 is a sectional view taken on the line x x of Fig. 1.

The general configuration of the bath-tub is elliptical, and, as shown in the drawings, the leading features consist in the molded rim and base and the intermediate convex upwardly-flaring sides.

a represents the molded rim of elliptical form, and b a small rib beneath the molded rim a, and c represents the convex upwardly-flaring sides.

The design of the molded base comprises the rib d with a vertical face, the coves 2 3, the convex rib e, and the bead e'.

The bottom of the bath-tub is flat, serving as a support, and the bath-tub of elliptical outline is designed to be detached from its surroundings.

What I claim is—

The design for a bath-tub, substantially as shown and described.

Signed by me this 6th day of April, 1900.

WILLIAM J. J. BOWMAN.

Witnesses:

R. K. BOWMAN,
GEORGE W. MACPHERSON.
