(54) Title: METHOD AND APPARATUS FOR THE MANAGEMENT OF DIABETES

(57) Abstract: A biological chip device having a biologic materials component according to embodiments of the invention may provide the ability to sense levels of blood parameters (e.g., glucose, insulin, and glucagon levels) in a patient. In certain embodiments of the invention, a device may include therapeutic abilities in which a portion of the biologic materials component produces a drug to treat the underlying disease in response to measured or sensed blood parameter levels.

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US 07/67132

A. CLASSIFICATION OF SUBJECT MATTER IPC(8) - C12Q 1/54 (2008.01) USPC - 435/14 According to International Patent Classification (IPC) or to both national classification and IPC		
B. FIELDS SEARCHED Minimum documentation searched (classification system followed by classification symbols) USPC - 435/14 Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched USPC - 435/69.6 (see search terms below) Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) PubWest DB=PGPB,USPT,EPAB,JPAB; PLUR=NO; OP=ADJ, Google Scholar, USPTO Search Terms: sensor, glucose, diabetic, endocrino, spencer z. Rosero, chip, collagen, cell response, treat, subsystem, therapy, chip device, insulin, stem cell, waste		
C. DOCUMENTS CONSIDERED TO BE RELEVANT		
Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X ----- Y	US 5,741,211 A (RENIRIE et al.) 21 April 1998 (21.04.1998) entire document, especially abstract; col 2, ln 53-54, ln 56-64; col 3, ln 20-26, ln 32-39, ln 41-53; col 4 ln 41-45, ln 54-62; col 5 ln 1-7, ln 26-29, ln 41-45	9-10 ----- 1-8
Y	US 4,240,438 A (UPDIKE et al.) 23 December 1980 (23.12.1980) entire document, especially col 5, ln 25-27	1-8
<input type="checkbox"/> Further documents are listed in the continuation of Box C. <input type="checkbox"/>		
* Special categories of cited documents: "A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier application or patent but published on or after the international filing date "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means "P" document published prior to the international filing date but later than the priority date claimed "T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art "&" document member of the same patent family

INTERNATIONAL SEARCH REPORT

International application No.

PCT/US 07/67132

Box No. II Observations where certain claims were found unsearchable (Continuation of item 2 of first sheet)

This international search report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:

2. Claims Nos.: 11
because they relate to parts of the international application that do not comply with the prescribed requirements to such an extent that no meaningful international search can be carried out, specifically:
Claim 11 is an improper omnibus claim.

3. Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box No. III Observations where unity of invention is lacking (Continuation of item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

1. As all required additional search fees were timely paid by the applicant, this international search report covers all searchable claims.
2. As all searchable claims could be searched without effort justifying additional fees, this Authority did not invite payment of additional fees.
3. As only some of the required additional search fees were timely paid by the applicant, this international search report covers only those claims for which fees were paid, specifically claims Nos.:

4. No required additional search fees were timely paid by the applicant. Consequently, this international search report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

Remark on Protest

- The additional search fees were accompanied by the applicant's protest and, where applicable, the payment of a protest fee.
- The additional search fees were accompanied by the applicant's protest but the applicable protest fee was not paid within the time limit specified in the invitation.
- No protest accompanied the payment of additional search fees.
