(57) **CLAIM**

The ornamental design for a display screen or portion thereof of with animated graphical user interface, as shown and described.

**DESCRIPTION**

The patent or application file contains at least one drawing executed in color. Copies of this patent or patent application publication with color drawings will be provided by the Office upon request and payment of the necessary fee.

FIG. 1 is a front view of a first embodiment thereof for a display screen or portion thereof with a transitioning design in a first state; and,

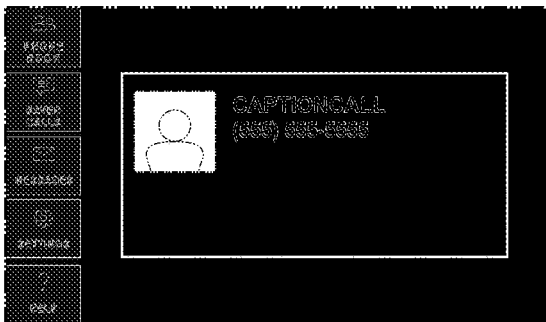

FIG. 2 is a front view of the first embodiment for the transitioning design in a second state. The appearance of the animated design sequentially transitions between the states shown in FIGS. 1 and 2. The process or period in which the design transitions to another forms no part of the claimed design.

FIG. 3 is a front view of an second embodiment thereof for a transitioning design in a first state; and,

FIG. 4 is a front view of the second embodiment for the transitioning design in a second state. The appearance of the animated design sequentially transitions between the states shown in FIGS. 3 and 4. The process or period in which the design transitions to another forms no part of the claimed design.

The broken lines showing a display screen or portions thereof and various design elements of the animated graphical user interface are included for the purpose of illustrating portions of the article and form no part of the claimed design.
