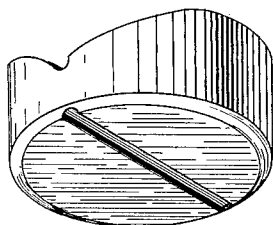

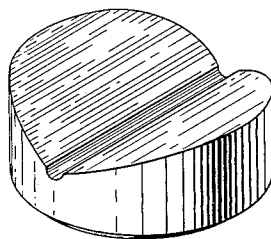

Fig. 3

FIG. 1 is a perspective view taken from above of a pharmaceutical tablet showing my new design;

FIG. 2 is a perspective view taken from above of a pharmaceutical tablet showing my new design in slightly modified form; and

FIG. 3 is a perspective view taken from below of a slightly modified form of the pharmaceutical tablet of FIG. 2, differing from the embodiment of FIG. 2 in that a diametral groove is present in the flat bottom surface of the tablet.

Except for the relieved edge, the bottoms of the tablets shown in FIGS. 1 and 2 are flat and unornamented.

I claim:

The ornamental design for pharmaceutical tablets, as shown and described.
