CLAIM

We claim the ornamental design for the wall-mounted touchpad control for lighting and home automation, as shown and described.

DESCRIPTION

FIG. 1 is a front view of a wall-mounted touchpad control for lighting and home automation showing the new design; FIG. 2 is a perspective view thereof; FIG. 3 is a left side view thereof; FIG. 4 is a right side view thereof, opposite the left side; FIG. 5 is a top view thereof; FIG. 6 is a bottom view thereof; FIG. 7 is a rear view thereof, opposite the front view; FIG. 8 is a close front view of a bottom portion of a wall-mounted touchpad control for lighting and home automation showing the new design; FIG. 9 is a close front and right perspective view of a wall-mounted touchpad control for lighting and home automation showing the new design; FIG. 10 is a rear and right perspective view of a wall-mounted touchpad control for lighting and home automation showing the new design; and, FIG. 11 is another perspective view showing the right and front of a wall-mounted touchpad control for lighting and home automation showing the new design.

The present application is directed to the design illustrated in the figures. The dotted radiating lines of FIG. 1 represent illumination and form no part of the claimed design.
