(57) **ABSTRACT**

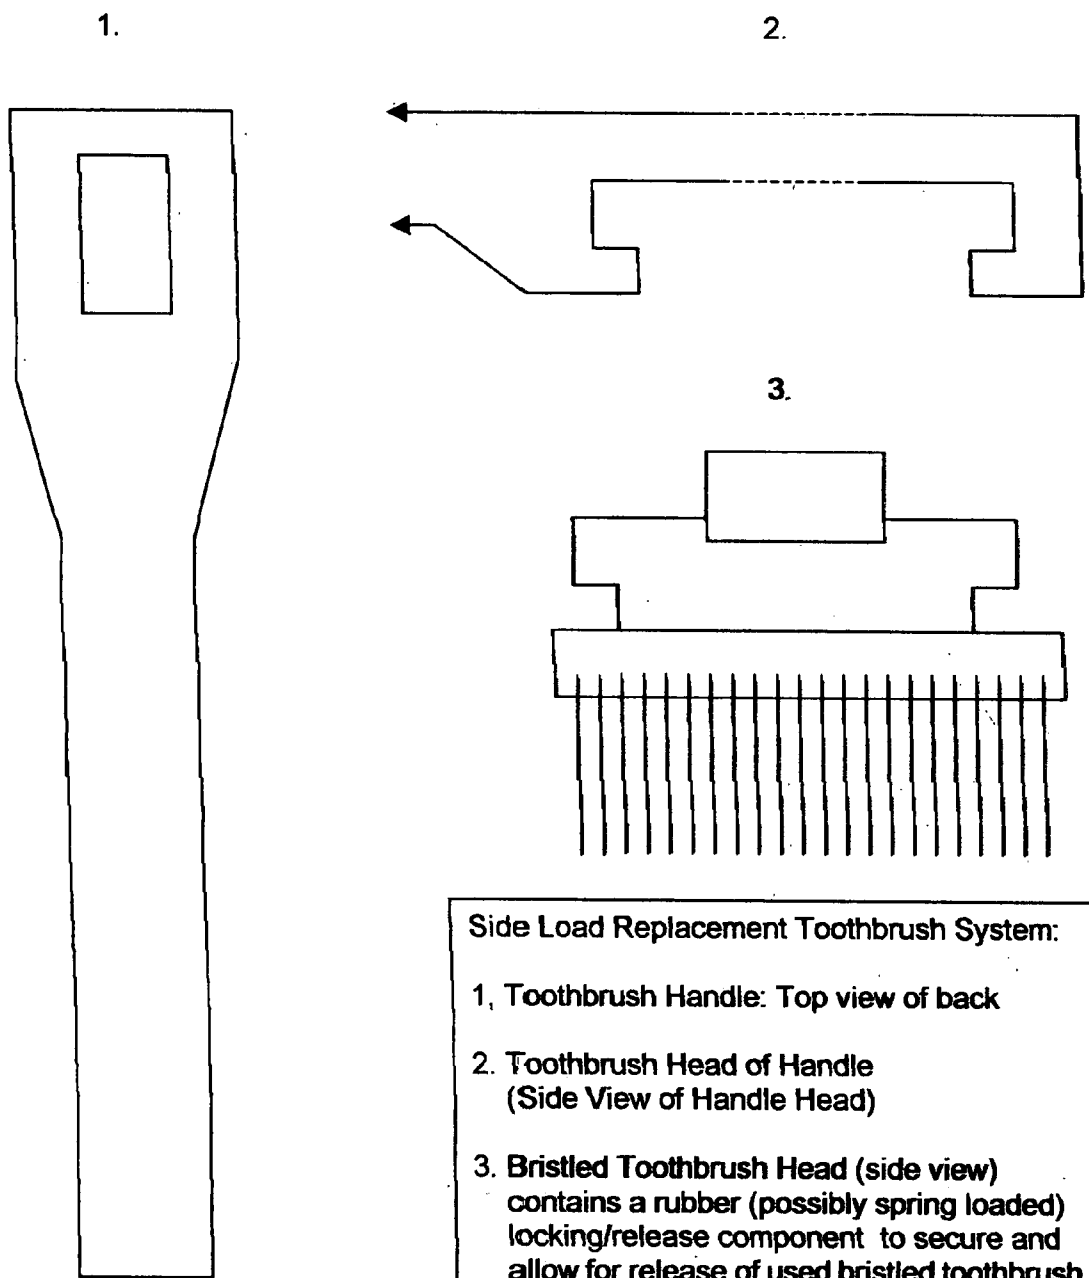

The Replacement Toothbrush System:

Is a system for the removal of a used bristled toothbrush head with a new replacement bristled toothbrush head. The replacement bristled toothbrush heads will be provided in a pack. The permanent/semi-permanent handle will be used for use with multiple replacement bristled toothbrush heads.

(21) Appl. No.: **11/810,907**

(22) Filed: **Jun. 7, 2007**

Side Load Replacement Toothbrush System:

- 1, Toothbrush Handle: Top view of back
- 2. Toothbrush Head of Handle (Side View of Handle Head)
- 3. Bristled Toothbrush Head (side view) contains a rubber (possibly spring loaded) locking/release component to secure and allow for release of used bristled toothbrush head

REPLACEMENT TOOTHBRUSH SYSTEM

CROSS-REFERENCE TO RELATED APPLICATIONS

[0001] None

STATEMENT REGARDING FEDERALLY SPONSORED RESEARCH OR DEVELOPMENT

[0002] None

REFERENCE TO SEQUENCE LISTING, A TABLE, OR A COMPUTER PROGRAM CD APPENDIX

[0003] None

1. BACKGROUND OF THE INVENTION

[0004] To my knowledge there are no referenced specific documents relating to my invention and there are no problems involving prior art which my invention is drawn toward.

2. CONCEPTION RECORD

[0005] After having my teeth cleaned I purchased a new toothbrush. I was brushing my teeth three times a day. Within two weeks I required a new toothbrush. I neglected to write the item down on my shopping list. That evening when I went to brush my teeth I realized that I did not purchase a new one. I saw a packet of razor blades. The idea came to me to develop a similar system for replacing the head of the toothbrush. This way I would have a convenient way of changing my toothbrush without having to remember to purchase a new one.

3. STATEMENT OF FIELD INVENTION PERTAINS

[0006] Personal Oral Hygiene applications.

4. BRIEF SUMMARY OF THE INVENTION

[0007] The Replacement Toothbrush System:

[0008] Is a permanent/semi-permanent toothbrush handle with a revolutionary designed head that will easily accommodate the interchangeable bristled toothbrush head.

5. ADVANTAGES OF INNOVATION

[0009] A new bristled toothbrush head can be exchanged for a used one conveniently to improve a persons oral hygiene

practices. A pack of new bristled toothbrush head can be purchased and kept for ease of replacement.

6. RAMIFICATIONS

[0010] I believe this revolutionary concept will allow for improved personal oral hygiene by conveniently providing a pack of replacement bristled toothbrush heads. Examples: Provided in Replacement Claim.

7. ADDITIONAL BENEFITS

[0011] Creative marketing strategies may encourage usage of the system by children for improved oral hygiene practices.

8. DISTINGUISHED FROM OTHER INVENTIONS

[0012] Closes known design:

[0013] Traditional one piece non replaceable toothbrush.

1. I claim: Improved personal oral hygiene practices through convenient and easy replacement of the bristled head of a toothbrush (with respect to marketing considerations).

2. I claim: Improved personal oral hygiene practices by use of customized and or personalized Replacement Toothbrush System Handles (with respect to marketing considerations).

3. I claim: Improved personal oral hygiene practices by use of customized and or personalized Replacement Toothbrush System Handles and Replacement Toothbrush Bristle Heads with the design to loaded into the handle from the top. (Top Load)

4. I claim: Improved personal oral hygiene practices by use of customized and or personalized Replacement Toothbrush System Handles and Replacement Toothbrush Bristle Heads with the design to loaded into the handle from the bottom. (Bottom Load)

5. I claim: Improved personal oral hygiene practices by use of customized and or personalized Replacement Toothbrush System Handles and Replacement Toothbrush Bristle Heads with the design to loaded into the handle from the side. (Side Load)
