[57] CLAIM

The ornamental design for a spray tube driving end for an oscillating sprinkler, substantially as shown and described.

DESCRIPTION

FIG. 1 is a top and front perspective view of a spray tube driving end for an oscillating sprinkler showing our new design;

FIG. 2 is a right side elevational view thereof, the left side being a mirror image;

FIG. 3 is a top plan view thereof;

FIG. 4 is a bottom plan view thereof;

FIG. 5 is a front elevational view thereof;

FIG. 6 is a rear elevational view thereof; and

FIG. 7 is a top and front perspective view of an alternate embodiment thereof, the difference residing in the configuration of the side runners.

The broken-line showing of the remainder of the sprinkler is for illustrative purposes only and forms no part of the claimed design.
