(54) **Mooring system**

(57) A rigid harness for a floating aquatic structure (1) is provided. The harness (2) comprises first and second ends, and the first end is pivotably attachable to the structure (1) such that in use the harness (2) may pivot about a single pivot axis (23) through a range of angles relative to, and including, the vertical. The harness (2) further comprises one or more mechanical and/or umbilical connections (28,30,32) adjacent the second end thereof. A mooring system for a floating aquatic structure which incorporates the harness is also provided.

ANNEX TO THE EUROPEAN SEARCH REPORT  
ON EUROPEAN PATENT APPLICATION NO.

EP 09 16 3320

This annex lists the patent family members relating to the patent documents cited in the above-mentioned European search report. The members are as contained in the European Patent Office EDP file on  
The European Patent Office is in no way liable for these particulars which are merely given for the purpose of information.
