Title: MOBILE CHAIR STOP SYSTEM

Abstract: A stop system for a mobile chair (100) having wheels is provided including a plurality of shroud members (115) configured for covering each radial chair leg (111) of the mobile chair. Each shroud member (115) is movable in a first direction to enable a mobile state of the chair and in a second direction to enable a stationary state of the chair.
A. CLASSIFICATION OF SUBJECT MATTER

A47C 7/00(2006.01)1, A47B 91/06(2006.01)1, B60B 33/00(2006.01)1

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
A47C 7/00, A47C 1/12, A47C 3/18, A47C 7/50, A47C 9/02, B60B 33/00

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched
Korean utility models and applications for utility models
Japanese utility models and applications for utility models
(Chinese Patents and application for patent)

Electronic data base consulted during the international search (name of data base and, where practicable, search terms used)
eKOMPASS(KIPO internal) & Keywords chair, move, stop, wheel

C. DOCUMENTS CONSIDERED TO BE RELEVANT

☐ Further documents are listed in the continuation of Box C ☑ See patent family annex

* Special categories of cited documents
  "A" document defining the general state of the art which is not considered to be of particular relevance
  "E" earlier application or patent but published on or after the international filing date
  "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of citation or other special reason (as specified)
  "O" document referring to an oral disclosure, use, exhibition or other means
  "P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"X" document of particular relevance, the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"Y" document of particular relevance, the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"&" document member of the same patent family

Date of the actual completion of the international search
26 MARCH 2010 (26 03 2010)
