(54) Title: AUTOMATIC FLUID FLOW CONTROL DEVICE

(57) Abstract: One embodiment of the invention provides a fluid control device for a fluid supply, the device comprising: a housing (31) defining a fluid supply channel (34) with a fluid inlet (35) for coupling to a fluid supply and a fluid outlet (36) for coupling to an appliance, the housing additionally defining a chamber (44) with an inlet (40) for coupling to an overflow and an outlet (41) for coupling to a drain; a valve (55) located in said fluid supply channel (34) and moveable from a first open position to a second closed position where fluid flow through the channel (34) is substantially restricted; an actuator (52) provided in said chamber (44) and moveable from a first position to a second position, wherein the valve (55) and actuator (44) are magnetically coupled to one another such that movement of the actuator (44) from said first position to said second position causes the valve (55) to move from said open position to said closed position.

A. CLASSIFICATION OF SUBJECT MATTER
INV. E03C1/242 F16K21/18 F16K31/08

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED
Minimum documentation searched (classification system followed by classification symbols)
E03C F16K

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the International search (name of data base and, where practical, search terms used)
EPO-Internal, WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category*	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.

* Special categories of cited documents :

- *A* document defining the general state of the art which is not considered to be of particular relevance
- *E* earlier document but published on or after the International filing date
- *L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
- *O* document referring to an oral disclosure, use, exhibition or other means
- *P* document published prior to the International filing date but later than the priority date claimed
- *T* later document published after the International filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
- *X* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
- *Y* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.
- * & * document member of the same patent family
