(54) **Title:** METHODS AND GRAPHICAL USER INTERFACES FOR EDITING ON A PORTABLE MULTIFUNCTION DEVICE

Figure 5D

(57) **Abstract:** Methods and graphical user interfaces for editing on a portable multifunction device with a touch screen display are disclosed. While displaying an application interface of an application, the device detects a multitouch edit initiation gesture on the touch screen display. In response to detection of the multitouch edit initiation gesture, the device displays a plurality of user-selectable edit option icons in an area of the touch screen display that is independent of a location of the multitouch edit initiation gesture. The device also displays a start point object and an end point object to select content displayed by the application in the application interface.
