(54) Title: PORTABLE HOLDER FOR BEVERAGE CONTAINERS

FIG. 1

(57) Abstract: A portable holder for beverage containers includes a basket suspended from a first movable position piece. The first movable position piece is rotatably connected to a first plate. The first plate is connected to a second plate. The second plate may be attached to a hanging member for suspending the portable holder for beverage containers. The second plate may be attached to a strap for securing the second plate to a stationary object or a moving vehicle. The portable holder for beverage containers may be configured to fold into a smaller size for storage when not in use.

## A. CLASSIFICATION OF SUBJECT MATTER

INV. B60N3/10

ADD.

According to International Patent Classification (IPC) or to both national classification and IPC

## B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

A45F A47G B60N

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

## \* Special categories of cited documents:

\*A\* document defining the general state of the art which is not considered to be of particular relevance

\*E\* earlier document but published on or after the international filing date

\*L\* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)

\*O\* document referring to an oral disclosure, use, exhibition or other means

\*P\* document published prior to the international filing date but later than the priority date claimed

\*T\* later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

\*X\* document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

\*Y\* document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art.

\*Z\* document member of the same patent family
