CHARLES CASPER, OF MERIDEN, CONNECTICUT, ASSIGNOR TO THE MERIDEN SILVER-PLATE COMPANY, OF SAME PLACE.

Design No. 4,613, dated January 31, 1871.

DESIGN FOR A DESSERT-SET.

The Schedule referred to in these Letters Patent and making part of the same.

To all whom it may concern:

Be it known that I, CHARLES CASPER, of Meriden, in the county of New Haven and State of Connecticut, have invented a new Design for Dessert-Set; and I do hereby the following, when taken in connection with the accompanying drawing, to be a full, clear, and exact description of the same, and which said drawing constitutes part of this specification, and represents in—

Figure 1, a side view of the spoon-holder;
Figure 2, a side view of the sugar, turned one-fourth around from fig. 1;
Figure 3, a side view of the cream; and in
Figure 4, the glass detached from the frame.

This invention relates to a design for the service known to the trade as "dessert-set," consisting of three pieces spoon-holder, sugar, and cream; and

The design consists in the peculiar form of a glass body, combined with a metallic frame for supporting the same, as fully shown in the accompanying drawing.

The general form of the body of each of the pieces, which are formed from glass, is the same, the spoon-holder being shown in fig. 4. The form is square, the four sides being equal, and of equal dimensions from the bottom to the top, the angles being preserved.

The sugar is provided with a cover and the cream with a spout, and each of these is fitted with a metallic frame, to afford handles for its use, it being understood that the design is for the particular configuration or form of the glass body, when combined with a frame to support it and form the handles.

I do not wish to be understood as combining the three articles, as they may be used singly or collectively, but the three constitute a set.

I claim as my invention—
The design for dessert-set, as herein described and shown.

Witnesses:

JOHN Q. THAYER,
CHARLES P. IVES.

OHAS. CASPER.
