(54) Title: COMMUNICATION DEVICE WITH INTELLIGENT COMMUNICATION MANAGEMENT AND METHOD THEREFOR

(57) Abstract: A communication device (100) having intelligent communication management includes a transceiver (110), a memory (120), and a communications manager application (140). The communication device (100) initiates communication connections sequentially with a plurality of communication means associated with a contact in response to a user input or alternatively based on a preset communication preference. The contact and associated communication means are stored in memory (120). When a communication connection is disconnected or not able to be established, the communications manager application (140) identifies the next communications means to initiate a communication connection with the contact.

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	US 2002/0059176 A1 (FUJISAWA) 16 May 2002, see entire document	1-12

☐ Further documents are listed in the continuation of Box C.

☐ See patent family annex.

* Special categories of cited documents:	
"A" document defining the general state of the art which is not considered to be of particular relevance	"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
"E" earlier application or patent published on or after the international filing date	"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)	"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
"O" document referring to an oral disclosure, use, exhibition or other means	"&" document member of the same patent family
"P" document published prior to the international filing date but later than the priority date claimed
