(54) Title: RECORDING A HYPER TEXT TRANSFER PROTOCOL (HTTP) SESSION FOR PLAYBACK

(57) Abstract: In one embodiment, a method includes recording a sequence of online activities of a first user. The online activities include online consumption of online content by the first user. The method includes constructing a path based on the sequence of online activities of the first user. The path includes a sequence of online activity points that each correspond to one of the online activities in the sequence of online activities of the first user, and the path enables a second user to experience personally for themselves at least an approximation of the sequence of online activities of the first user. The method includes communicating the path for traversal of a portion of the path by the second user.
— as to applicant's entitlement to apply for and be granted a patent (Rule 4.17(ii))
— as to the applicant's entitlement to claim the priority of the earlier application (Rule 4.17(iii))
— before the expiration of the time limit for amending the claims and to be republished in the event of receipt of amendments (Rule 48.2(h))

INTERNATIONAL SEARCH REPORT

A. CLASSIFICATION OF SUBJECT MATTER
IPC(8)- G06F 3/00 (2012.01)
USPC - 715/747
According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)
USPC: 715/747

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched
USPC: 715/747 | 707/736,781,785,999.001 | 725/34 | 705/26.1 (keyword limited; terms below)

Electronic database consulted during the international search (name of database and, where practicable, search terms used)
Electronic Database Searched: PubWEST(PGPE, USPT, EPAB, JPAB), Google Scholar
Search Terms Used: record, capture, track, session, activity, internet HTTP online brows, hyperlink, link, site, page, website, click, action, motion, movement, path, experience, sequence, route, communicate, send, transmit, share, get, receive, user, person, member

Further documents are listed in the continuation of Box C.

* Special categories of cited documents:
  "A" document defining the general state of the art which is not considered to be of particular relevance
  "E" earlier application or patent but published on or after the international filing date
  "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
  "O" document referring to an oral disclosure, use, exhibition or other means
  "P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention

"X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone

"Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art

"&" document member of the same patent family

Form PCT/ISA/210 (second sheet) (July 2009)
1. With regard to the language, this opinion has been established on the basis of:
   - ☒ the international application in the language in which it was filed.
   - ☐ a translation of the international application into __________________, which is the language of a translation furnished for the purposes of international search (Rules 12.3(a) and 23.1(b)).

2. ☐ This opinion has been established taking into account the rectification of an obvious mistake authorized by or notified to this Authority under Rule 91 (Rule 43(bis.1(a))

3. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, this opinion has been established on the basis of a sequence listing filed or furnished:
   a. (means)
      - ☐ on paper
      - ☐ in electronic form
   b. (time)
      - ☐ in the international application as filed
      - ☐ together with the international application in electronic form
      - ☐ subsequently to this Authority for the purposes of search

4. ☐ In addition, in the case that more than one version or copy of a sequence listing has been filed or furnished, the required statements that the information in the subsequent or additional copies is identical to that in the application as filed or does not go beyond the application as filed, as appropriate, were furnished.

5. Additional comments:
