(57) **CLAIM**

The ornamental design for a display screen for digital camera with graphical user interface, as shown and described.

DESCRIPTION

FIG. 1 is a top, rear and left side perspective view of a display screen for digital camera with graphical user interface, showing my new design;

FIG. 2 is a front elevational view thereof;

FIG. 3 is a rear elevational view thereof;

FIG. 4 is a top plan view thereof;

FIG. 5 is a bottom plan view thereof;

FIG. 6 is a left side elevational view thereof;

FIG. 7 is a right side elevational view thereof;

FIG. 8 is an enlarged view of the display screen, shown separately from the camera;

FIG. 9 is an enlarged view of a portion defined between arrowheads 9-9 of FIG. 8; and,

FIG. 10 is a rear elevational view of the digital camera according to an embodiment in which camera information is displayed not only on the display screen but also within a viewfinder of the camera body.

The broken line showing of a digital camera illustrate the environment. The remainder of the broken lines shown illustrate portions of the display screen for digital camera with graphical user interface. The broken lines form no part of the claimed design.

1 Claim, 10 Drawing Sheets
